Cycling & Trekking the Dolomites loop

DOLOMITIBUS

DOLOMITES BUS AND TRENITALIA

The Dolomites Train&Bus service

is an intermodal service which allows cycle tourists to ride the cycle paths of the Dolomites loop between Calalzo, Cortina, Misurina and Auronzo, including the Lunga Via delle Dolomiti, as well as the many mountain bike trails.

Trekking enthusiasts can use the service to reach the departure points for unforgettable walks that suit all levels of difficulty. It is a one-off opportunity to visit the numerous tourist attractions of Belluno, UNESCO world heritage site: this year the same foundation also sponsors the Train&Bus service.

The initiative will run for the entire summer (11/6/17 - 10/9/17), from Monday to Sunday.

Every day in summer it will be possible to visit the mountainous beauties in a sustainable manner, even planning holidays over multiple days.

The trains arriving from Conegliano and Belluno every day are equipped to transport 7 bicycles and from Calalzo they coincide with the bus service equipped to transport bikes for the Dolomites loop.

On Saturdays and bank holidays the trains from Venice, Vicenza and Padua link up with two bus services for each direction, all equipped to transport bicycles.

The buses, with Wi-Fi on board, link up in Misurina with connections for Tre Cime, and in Cortina with the bus for Dobbiaco.

Don't worry if you haven't got a bike to bring: you can rent one on site with discounts for Unico Veneto card holders or the Train&Bus Hop on Hop off day ticket for the Dolomite loop.

Download the Trenitalia APP and the Dolomiti Bus* APP, where you will find a section dedicated to the Dolomites Train&Bus service, with all the interactive information.

**App available from 10th June 2017*
